Elliot Danforth, the Former Senator's B. Johnson, who is employed at No. 164 him as the thief. Corn sprang from Right Hand Man, Goes to Atlantic Woodside. L. I. City Bearing Overtures of Peace to the Both Corn and Johnson saw the rob-Leader of Tammany Hall.

Elliot Danforth has gone to Atlantic City to have a talk with Charles F. Murphy, and this move has given rise to the report in Tammany circles and got on the step. He crouched low. that Mr. Danforth is acting as an agent for David B. Hill in an effort to by some of the persons in the car. avoid friction at the State Convention.

Mr. Danforth arrived in New York last night, expecting to meet Mr. Murphy here. He learned over the telephone that Mr. Murphy had gone to Atlantic City, and he too went to Atlantic City on the first train to-day, any trouble. The impression grows that Senator Hill fears that Patrick Henry Mc-

Carren cannot deliver the Brooklyn delegates instructed for Parker, and crossing had been robbed, and that the crossing had been robbed, and that the case, fined Brossard \$10. Mrs. Gould he needs those delegates, because Tammany, Queens and Richmond delesaid she would pay the fine, but upon gates will go to Albany nominally prepared to vote against instructing the her. The motorman thought that he examining her purse discovered she did delegates to the National Convention to present Judge Parker as New York's en man. He turned on full speed, hoptavorite son. If Mr. Murphy can secure control of the Brooklyn delegation -and many believe that he has already done so-the combined Greater New York delegates, with the scattering uninstructed delegates from up-State, would be in position to give Senator Hill a close call.

Before returning to Atlantic City yesterday Mr. Murphy announced that he was not in favor of instructing the delegates for anybody. He began his fight along this line at the meeting of the State Committee to choose a time and place for the State Convention, and he lost on that occasion It appeared then that McCarren's control of Kings was absolute, and that the only delegates who would reach the convention opposed to indorsing Parker would be those from Tammany Hall.

Now the complexion of things has changed. Mr. Danforth has been young man having a card in his pocket | Senator Hill's right-hand man in the nursing along of the Parker boom, and it is expected that his visit to Atlantic City will be productive of some developments that will have a pronounced bearing upon the situation.

McCARREN ONLY SURE OF TEN DISTRICTS.

The Brooklyn Eagle to-day, after a careful canvass of the Brooklyn situation, announces that ten of the district leaders are for a delegation instructed for Parker, three have expessed themselves as against it and Inquiry revealed the fact that a man named M. J. Giblin lived at No. 1227 Park avenue with his mother and his sister Mary. No one was at home this afternoon, but Mrs. Russer, the janitress, said that Mr. Giblin was in town last Saturday but left on Sunday for iJoston, where he has a brother. Mrs. Russer said she could imagine no teason why Mr. Giblin should have wished to end his life, as he had a good position as travelling salesman, and, so far as she knew, was not in difficulties of any kind. against McCarren's leadership, and eight are not willing to express an opinion. Most of the eight are against an uninstructed delegation, even though Yalu River at different points. Refugees who have arrived here from they are not opposed to McCarren as a leader.

the convention backed by eleven of the Brooklyn Assembly District delega- exodus inland. Even the Russian garrisons in that locality are retreating tions, while Senator McCarren will have only ten. From present indications the actions of the delegates in regard to voting for an instructed delegation will be decided upon at a caucus, and with eleven districts behind him Murphy would have a majority against instructions.
